## **Experts in window and door replacement and repair**

**Clear Window Technology** has been proudly replacing and repairing windows and doors in St. Louis since 1983. Its team of professionals has a combined 80 years of experience in sales, installation and service of many proven brands, including Andersen. They have the tools and expertise needed to complete any size job.

*Dennis McHugh, owner*

Customers won't find three-hour sales pitches, high-pressure tactics or outrageous prices with exorbitant, phony discounts at Clear Window Technology. Instead, owner Dennis McHugh, with more than 20 years of window and door installation experience, will personally guide each customer through all of the available options and provide a free cost estimate that is both realistic and competitive.

All of the high-quality window and door products at Clear Window Technology exceed Energy Star requirements in all three climate zones, and have proven their durability in the St. Louis climate for more than 30 years. Several of the Andersen products in stock, such as Andersen for Wood or Fibrex composite windows and patio doors, are typically priced 30 to 40 percent less than the price charged by competitors. In addition to Andersen,

customers seeking custom vinyl composite windows and doors will appreciate the Elite 4000 line, which also is efficient and durable, reasonable in price and made in Missouri.

Customers looking to repair rather than replace windows and patio doors need look no further than the dedicated crews at Clear Window Technology. The company services all types and brands of windows and doors and, even if the manufacturer is no longer in business, they can often get the glass or parts needed to complete the job.
